From Our Family to Yours ... We're Ready for Spring

As we write this message, we are clearing out from the great Blizzard of '05. (We start working on these newsletters early, just as we plan for your spring home comfort weeks in advance.) We suppose it was inevitable that Old Man Winter would show us his stuff, but before we all know it we'll be turning on those air conditioners. Are you ready? *We are!*

Speaking of air conditioners, did you know that a **new, high-efficiency unit could be a great investment?** See the article on page 3 — you may find you want to stop thinking about CDs and start investing in A/Cs! What's more, today's **high-efficiency cooling systems are earth-friendly** (see page 3). And where can you find such an air conditioner? **Carrier's new "Infinity" product line**, of course! Check out our money-saving **Carrier spring promotion on page 2!**

But whether you "spring" for new comfort equipment or stand by your old, reliable unit, you can always be assured that your equipment is operating at peak performance with a service agreement. And **Harris' new "family" of service protection plans** offers you comprehensive coverage of your comfort system and more peace of mind than ever before. Our plans cover **oil and gas heat equipment, central air conditioning, hot water heaters, humidifiers and heat pumps**. They'll help protect your comfort system *and* the investment you've made in your home! See the article at right for more information.

Have a warm and wonderful spring!

Sincerely,

The Harris Family

What's Inside

- ✓ A Great Investment
- ✓ High-Efficiency Equipment
- ✓ Fall Contest Winner
- ✓ Humidity Control
- ✓ Max's Spring Tips
- ✓ Carrier Spring Promotion
- ✓ New Service Plans
- ✓ ServAssure Guarantee

Good News About Your Service Plan!

Check your mailbox! You'll soon be receiving information about our **NEW family of service protection plans** — including the **COMFORT PLUS PLAN**, offering you comprehensive coverage of your home heating system ... and the **ULTIMATE COMFORT PLAN**, for even more peace of mind!

Plus, we make it easy for you to enjoy the benefits of these new and improved plans. As a valued Harris Comfort customer, **you're automatically enrolled in the ULTIMATE COMFORT PLAN**, which will replace your current plan. Providing maximum protection, **ULTIMATE COMFORT** includes coverage of all the system parts you already receive — with the **significant addition of dozens of other valuable parts and services** — at a **very affordable price**. Plus, **you'll continue to earn Loyalty Credits** towards your purchase of new comfort equipment!

And for your convenience, we're also offering other valuable service plans for **central air conditioning, hot water heaters, humidifiers and heat pumps**. Should you decide to choose a more basic plan, we've got one that fits your needs.

No matter which plan you choose, you'll benefit from:

- **priority service**
- **prompt, 24-hour emergency service**
- **expert, certified technicians**
- **maximum comfort system efficiency**

So watch your mail for information on our service plans — just another way in which we strive to serve you better.

Make It Dry ... DEHUMIDIFY!

Back in the fall, we touted the benefits of humidifiers in maximizing comfort and protecting health. Now that spring is here, dehumidification is the name of the game. **The airtight house that kept cold air out all winter probably also kept household moisture in.** The result — mold, which can trigger allergies and asthma attacks, and cause “dry rot” to your home’s structure.

One of the best systems we know of in controlling humidity is the Carrier® Infinity™ system, which lets you achieve the right balance of temperature and humidity when used in conjunction with a Whole House Humidifier.

At the heart of the Infinity System is the **Infinity Control**, which integrates and manages six core comfort functions (temperature, humidity, air flow, ventilation, indoor air quality and zoning), optimizing efficiency for **BIG energy savings.**

Maximize your comfort, and protect your health and home. Call now for a **FREE** estimate on the Carrier Infinity system.

\$500 Holiday Shopping Spree Winner

Patricia and Edward Derendinger of Fairless Hills, PA, are the lucky grand prize winners of a **\$500 American Express Gift Cheque.** We hope they enjoyed their holiday shopping spree. Watch for more exciting contests in future issues of *MAXimum Comfort News.*

(l. to r.) Dan D’Amico, President and Owner of Comfort Control Corporation, Huntington Valley, PA; shopping spree winners Patricia and Edward Derendinger; and John Hentkowski, Chairman of the ServAssure Dealer Alliance Board.

Add These Components to Your Carrier Infinity System to Further Improve Indoor Air Quality

- **Air Cleaner** improves air quality by removing harmful and irritating airborne pollutants from your home.
- **Ultraviolet Germicidal Lamp** reduces the amount of pollutants, such as mold, bacteria, fungi and viruses, leaving your home with cleaner, fresher indoor air.
- **Comfort Ventilator** combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency — great for today’s tightly constructed homes.

Satisfaction Guaranteed!

What sets our comfort company apart from the rest? Our membership in the **ServAssure Dealer Alliance** — an industry-wide organization that guarantees your total satisfaction and maximum comfort. Our strict performance code ensures you:

- ▶ **Around-the-clock service when you need it**
- ▶ **No surprise pricing**
- ▶ **13-month money-back guarantee on installations**
- ▶ **Neat, clean, prompt professional technicians**

For ultimate peace of mind, you can’t beat the ServAssure Guarantee!

Energy Efficient Products:

Save the World ... and Save Your Money!

Did you know that simply changing your light bulbs can cut your energy bills and help save the environment?

It's true. When you replace just 5 light bulbs in your home with ones that have earned the ENERGY STAR®, you create a better environment inside and outside your home — while saving yourself energy and money. And, according to the EPA, if every American home made this “5 light change,” we'd keep more than one trillion pounds of greenhouse gases out of our air.

If switching light bulbs can do so much good, imagine what switching to high efficiency heating and cooling equipment can do! Fact is, if just one in ten households bought ENERGY STAR heating and cooling products, over 17 billion pounds of pollution would be kept out of the air.

Another environmentally friendly change you can make is to upgrade your central air conditioning system to an ultra-efficient one by **Carrier**, featuring **Puron™**, the new, chlorine-free refrigerant that won't deplete the ozone layer like Freon.

The environment isn't the only thing that benefits when you use energy-efficient equipment. Your wallet benefits too. By avoiding energy waste you will save money on your utility bills.

And energy efficient heating and cooling equipment can last longer and may require less maintenance — saving you from expensive repairs and emergency service calls.

Smart energy choices benefit everyone.

We'll be happy to show you how simple changes can control your budget and be kind to Mother Nature.

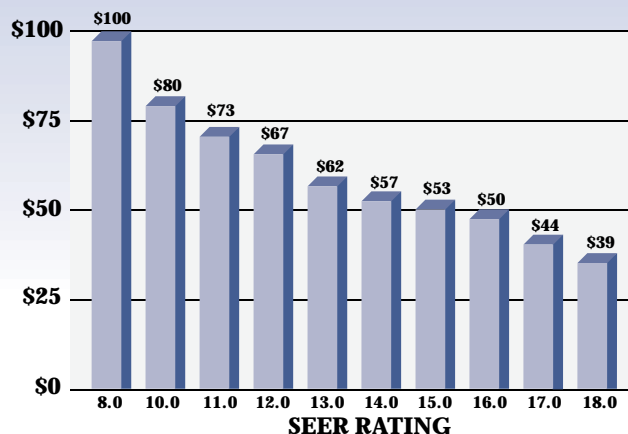

Please give us a call today. 

SEER and Savings

SEER (Seasonal Energy Efficiency Ratio) is a measurement of air conditioning cooling. All new models are required to have at least a 10.0 SEER rating. The Carrier Infinity 18 air conditioner receives up to 18.0 SEER.

For every \$100 you would spend to cool your home using an 8.0 SEER system, the Infinity 18 air conditioner (18.0 SEER) would save you approximately \$61. Actual savings depend on the efficiency of your current system compared to the efficiency of a new system.

Looking for a Great Investment? Try New Comfort Equipment!

Replacing an old, inefficient comfort system is one of the best investments you can make. Where else can you get up to a 40% tax-free return on investment; a more comfortable, cleaner, quieter home; help improve the environment; and increase the value of your home? Not from a savings or checking account ... not from a CD ... and not from playing the stock market! Plus, the savings gained by upgrading to highly efficient equipment far exceed the interest paid on a loan to pay for that equipment.

Don't take risks with your money ... or your comfort. To find out how much you could save by purchasing new energy-efficient comfort equipment, contact us today.

Max's Spring & Summer Tips

Stay cool, save energy and cut costs — all at the same time — as the warmer weather approaches. Just follow these easy tips:

- ⚙ **Keep drapes, blinds and shades closed during the day** to block out the sun.
- ⚙ **Clear furniture away from air conditioning vents**, and close unused rooms and their vents.
- ⚙ **Clear the area around your a/c condenser** of debris accumulated over the winter.
- ⚙ Keep cool air in by **installing insulation and weather-stripping**.
- ⚙ **Install reflective window coatings** to reflect heat away from your home.
- ⚙ **Cook on the grill** to keep cooking heat outside.
- ⚙ When cooking inside, **use a microwave** instead of a conventional oven — it uses less than half the power and cooks food in about one-fourth the time.
- ⚙ **Turn the air conditioner thermostat up** to at least 78° or higher, or use a programmable thermostat. Turn air conditioners off when no one is home.
- ⚙ **Plant shade trees** due west of west windows — it could reduce your air conditioning bills by up to 25%.

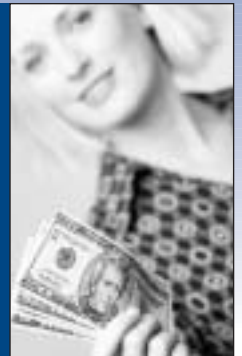

And don't forget to call us for your annual central air conditioning check-up!

Prefer Us? Refer Us? You Could Be \$50 Richer!

As our customer, you know what it means to be part of a valued family. After all, we pride ourselves on always putting YOU first.

If you're happy with the service you're receiving, why not recommend a friend, relative or neighbor? For each person you recommend that receives a new Carrier equipment installation, you will receive \$50! That's right — \$50 for simply giving out fantastic comfort advice. And don't forget to mention our ServAssure Guarantee!

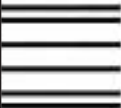

Please complete and mail the enclosed postage-paid reply card so we can receive information on your referral.

We consider referrals to be the highest of compliments. After all, we wouldn't be able to provide outstanding service throughout the years without great customers like you to spread the word! \$\$\$
